## Lawndale Health Center To Be Dedicated Saturday

Improved and expanded health services will be available to the people of the southwest and bay cities area with the formal dedication of the new Lawndale Health Center as a part of the Lawndale civic center Saturday at 10:30 o'clock.

Specifically designed to render health services in the most efficient and economical manner possible, the building includes the most modern facilities and equipment for the care which will be provided there, according to Supervisor Kenneth Hahn.

Attention to small details, such as providing a motion picture screen in the combination waiting-lecture room for showing of health education films, has added much to the efficiency of the services to be rendered.

To Serve 60,000

The Health Center will serve a population of approximately 60,000 persons living in an area of nine square miles including Lawndale, Alondra Park, portions of Redondo Beach, Hawthorne, and other adjacent communities.

Opening of the Health Center will benefit all persons in the southwest area by taking some of the caseload off other Health Centers, principally at Inglewood and Torrance, Supervisor Hahn said.

Clinics Opening

A number of special clinics have been tentatively scheduled on a regular basis.

Child health clinics will be conducted each Tuesday and

Friday afternoon and prenatal clinics will be held twice a month on Wednesday mornings.

A chest clinic will be held once a month on a Wednesday afternoon.

Open Five Days

In addition to the clinics the health office will be open five days a week from 8 a.m. to 4 p.m., with health department personnel on duty. Services to be provided include immunizations, school re-admissions, care for minor skin conditions, examinations for suspected communicable diseases, and dog bite treatment.

A sanitation office will also be operated at the health center and will provide assistance in problems connected with food and drugs, dairies and dairy products, garbage and refuse, and similar matters.

Facilities Varied

Facilities of the health center include lecture rooms, examination and treatment rooms, X-ray room (with leaded doors), developing room for X-ray films, public comfort stations, and offices for doctors, public health nurses and medical social workers.

The health center wing of the civic center building faces on Greville St. just north of 147th. It combines utility with beauty and features cheerful colors, natural finish hardwood and gleaming stainless steel cabinets.

UNOCCUPIED AREA

About five-eighths of the area of Panama is unoccupied.
